C-230 SNAP BUDGETING STEPS

Once household members' income and expense data is entered into the computer, the system will calculate the correct allotment based on household size, income and any applicable shelter expenses, utility allowance phone or medical expenses. **Note:** Offline manual budgets are done for claims. SNAP budgeting is done by the computer except for **manual claims** which require recomputing the allotment for each month in question.

Prorated Benefits: Proration of the benefit amount occurs for the initial month of application after step #9 below and is based on the date of application. Proration also applies to timely reapplication cases that cooperate after the certification end date, but within the established 30-day period (Window of Opportunity [WOO]). Benefits are prorated from the date of cooperation. Benefits calculated to be under the current minimum allotment for the initial month will not be issued, UNLESS the household is categorically eligible for the current minimum allotment.

Steps: Apply the gross income test in both the eligibility and allotment determination, unless policy specifies otherwise.

Compare countable gross income to the maximum gross monthly income allowable by household size, except for 1) households containing an elderly or disabled member; and 2) categorically eligible cases. If the household does not pass the gross income test, deny/terminate benefits.

1. Add all gross earned income received in the month or anticipated to be received.
2. Multiply by 80% for net earned. **Do not allow the 20% for claims resulting from non-reporting of earnings.**
3. Add all unearned income received or anticipated to be received to net earnings.
4. Subtract the standard deduction based on household size, allowable dependent care and verified court ordered child support payments. The result is the adjusted income. **If elderly/disabled**, also subtract medical expenses less the \$35 deductible to reach the adjusted income.
5. Subtract allowable shelter expense:
 - Total monthly shelter expenses
 - Multiply adjusted income by 50%
 - Subtract remainder of adjusted income from shelter expense
6. Subtract the lesser of actual expenses or fixed max expense from the adjusted income for net income. **If elderly/disabled**, subtract the actual excess shelter expense from adjusted income for net income.
7. Subtract the homeless shelter deduction (when applicable) from net income.
8. Net Income Test.

Apply the net income test in both the eligibility and allotment determinations, for all households **except those which are categorically eligible**. Compare net income to the maximum net monthly income allowable by household size.

If the non-categorically eligible household does not pass the net income test, deny/terminate benefits. **DO NOT** use the Allotment Tables in manual section C-220.

9. To determine allotment value after applying budgeting steps 1 through 7:
- Multiply net income by 0.3 (30%) and round **up**.
 - Subtract the 30% product from the maximum allotment for the household size.
 - The result equals the SNAP allotment.

OR

- Use the SNAP Net Income and Allotment Tables in manual section C-220.

The prorated benefit formula is as follows:

Nevada uses a standard 30-day calendar formula *(full month's benefit X 31 [date of application] ÷ 30 = allotment)* to determine monthly benefits. This means a person applying on the 31st of the month is the same as applying on the 30th. The 30-day calendar also applies to the month of February. Always subtract the application date from 31 days, regardless of the number of days in the month.

Once the initial month's benefit amount is calculated through #9 above (using all countable income and allowable deductions), proration will be applied starting with application dates on and after the 2nd day of the month through the last day of the month. Households applying on the first of the month will receive a full month's benefit (if otherwise eligible).

Benefits for the initial month are prorated using the 30/31-day formula as follows:

1. Subtract the date of application from 31 to arrive at the number of days to be prorated.
2. Divide the whole allotment for the household size (after all allowable deductions and expenses are applied) by 30 days. The sum is the daily SNAP benefit amount. Round the cents.
3. Multiply the number of days in #1 by sum in #2. Drop all cents.
4. The result in #3 is the prorated benefit amount.

Example: A household with a whole monthly allotment computed to be \$395 applies on June 17. The household's prorated allotment for July is \$184 (31-17 = 14 days. \$395 / 30 days = \$13.166 = \$13.17. \$13.17 x 14 = \$184.38 or \$184)

The computer will automatically compute and prorate the initial month's benefit based on information posted in the computer. When computing manual budgets use the same formula to determine prorated benefits.

Non-Categorical Households: If a one- or two-person household passes the net income test and is computed to be eligible for a SNAP allotment under the current minimum allotment or no allotment, the computer will automatically issue the current minimum benefit allotment. Households with three or more persons will receive the computed allotment which is under the current minimum allotment, except where the benefit is an uneven dollar amount. These allotments will be increased to the next higher even dollar amount (e.g., \$1 = \$2, \$3 = \$4, \$5 = \$6).

Categorical Households: Categorically eligible households of one or two persons will receive the current minimum monthly allotment regardless of their income level.

Case Suspense Status: When the allotment computation results in [0] for categorically eligible households of three or more persons, the case will be in **SUSPENSE** status. These cases will **NOT** be denied or terminated for excess income. Benefits will not be issued (they will be suspended), but the case will be open. The certification period will expire as normal, regardless of whether the case is in suspense or payment status.

NOTE: Cases which are **not** categorically eligible or **not properly identified** as categorically eligible (in the computer) will be denied/terminated when excess income occurs. All cases denied or terminated for excess income and/or resources must be screened for categorical eligibility status on Form 2152.

240.1 Budgeting of Income and/or Resources

Disqualified/Ineligible Member	Evaluate Income/Resources for Budgeting	Count Income in Full	Prorate Income	Count Resources in Full	Prorate Resources
1. Non-Citizen	Yes	No	Yes	Yes	No
2. SSN Non-compliance/ Voluntary Exclusion	Yes	No	Yes	Yes	No
3. IPV–Regular	Yes	Yes	No	Yes	No
4. IPV–Trafficking SNAP	Yes	Yes	No	Yes	No
5. IPV- Misrepresentation of ID/Residence-120 Months	Yes	Yes	No	Yes	No
6. Work Requirement Non-Compliance	Yes	Yes	No	Yes	No
7. Fleeing Felon [if an otherwise required member]	Yes	Yes	No	Yes	No
8. Drug Felon (not trafficking) [if an otherwise required household member]	Yes	Yes	No	Yes	No

9. Ineligible Student [not eligible to participate]	No	N/A	N/A	N/A	N/A
10. ABAWD ineligible due to receipt of 3 months in 36 month time period limitation (if an otherwise required member)	Yes	No	Yes	Yes	No

Note: This chart reflects how income and resources are budgeted. Earned income entered in the system will receive all allowable income deductions. A SNAP claims budget will be processed accordingly, unless there is an income reporting penalty which prohibits the allowance of the 20% earned income deduction.

240.2 Budgeting of Expenses

Disqualified/Ineligible Member	Budget Full Household Expenses	Prorate Household Expenses	Allow Household SUA (if eligible per section A-660.5)
1. Non-Citizen	No	Yes (<i>prorate if billed to or paid by the ineligible disqualified person or they are found jointly responsible for the expense</i>)	Allow Full SUA
2. SSN Non Compliance/ Voluntary Exclusion	No	Yes (<i>prorate if billed to or paid by the ineligible disqualified person or they are found jointly responsible for the expense</i>)	Allow Full SUA
3. IPV-Regular	Yes	No	Allow Full SUA
4. IPV-Trafficking SNAP (if otherwise a required member)	Yes	No	Allow Full SUA
5. IPV-Misrepresentation of ID/Resident-120 months	Yes	No	Allow Full SUA
6. Work Requirement Non Compliance	Yes	No	Allow Full SUA
7. Fleeing Felon (if otherwise a required member)	Yes	No	Allow Full SUA

8. Drug Felon (if otherwise a required household member)	Yes	No	Allow Full SUA
9. Ineligible Student (not eligible to participate)	Yes Allow only the amount actually paid or contributed by the eligible household members.	Yes If the expenses cannot be differentiated, the expenses shall be prorated.	Allow Full SUA if any eligible household member is entitled to the expense.
10. ABAWD used 3 months is not eligible (if otherwise a required member) NOTE: If the ABAWD has income, but does not meet minimum hours, they must be instructed to report a change in increased hours/wage because they must be added to the case when hours/income meet the 20 hour per week ABAWD exemption.	Yes If expenses are paid by the remaining household members and not the ABAWD.	Yes (<i>prorate if billed to or paid by the ineligible disqualified person or they are found jointly responsible for the expenses</i>)	Allow Full SUA

Note: At the current time, the system does not correctly budget the income for Fleeing and Drug Felons or ineligible ABAWD individuals. Until such time the system is corrected, the following workaround must be completed for these individuals:

1. Fleeing Felons and Drug Felons – The system currently pro-rates these individual’s income in the system. The prorated portion of the ineligible member’s income will need to be entered on the appropriate screen/BAP (JINC, UNIN, etc.) under an eligible member’s name.
2. ABAWDS excluded due to 3 month limitation – The system currently excludes the income of these individuals. An offline determination will need to be completed to determine the amount of prorated income countable to the remaining eligible household members. The countable prorated income must be entered on the appropriate screen/BAP (JINC, UNIN, etc.) under an eligible member’s name.

The case record must be documented as to the determination of the amount being budgeted to the eligible member’s name and the circumstances regarding the excluded household member.
